hi[dot]annuai[at]gmail[dot]com

Industrial Designer focused on product development, prototyping, and fabrication. Founder of nimit, a small product development studio working on motorcycle accessories, consumer products, and hardware projects.

Experienced with CAD, CNC machining, 3D printing, and prototyping workflows, with an interest in building practical and well-designed products.

Experience

aega design/ nimit design

Founder

Kannur, Kerala

2025-Present

- Founded a design and prototyping studio focused on developing high-quality, functional products.
- Led projects involving industrial design, CAD development, rapid prototyping, fabrication, and testing.
- Worked on product concepts spanning consumer electronics, lifestyle products, and motorcycle accessories.
- Built workflows involving CNC machining, 3D printing, electronics prototyping, and iterative product testing.

frog design

Industrial Designer

Gurgaon, Haryana

2023-2025

- Worked on UI and product design projects for clients including Maruti Suzuki, Siemens, Unilever, and ICICI Bank.
- Contributed to interface design, interaction design, prototyping, and motion graphics for multiple client engagements.
- Worked on "Nero," an internal water purifier concept focused on affordability, usability, and accessibility for middle-class and emerging working-class families.
- Collaborated with multidisciplinary teams across research, design, prototyping, and product strategy.

Instillmotion Consulting

Industrial Designer Intern

Hyderabad, Telangana

2022

- Worked on smart product concepts, internal product design, mockups, proof-of-concept models, and 3D printed prototypes.
- Assisted in prototyping workflows and product development for technology-driven products.

Yaksha Visual Technologies

Design & Development Intern

Chennai, Tamil Nadu

2017

- Worked on AR educational applications involving card design, UI design, and backend API development.
- Contributed to interaction design and data management workflows.

Justbootup Technologies

UI/UX Design Intern

Coimbatore, Tamil Nadu

2016

- Designed and prototyped websites and interfaces for multiple clients.
- Worked on interaction design and front-end experiences.

Education

National Institute of Design (NID), Haryana

Kurukshetra, Haryana

Bachelor of Design (B.Des) — Industrial Design

2017 – 2021

- Focused on product development, prototyping, user-centered design, fabrication, and emerging technology-driven products.
- Developed an indigenous 3D printing platform as graduation project.

Indira Gandhi National Open University (IGNOU)

Kannur, Kerala

Bachelor of Arts (B.A.) — Psychology

2016–2022

Skills & Interests

Motorcycles, tinkering, 3D printing, carpentry, photography, prototyping, fabrication systems, and emerging technology.

Tools

Autodesk Fusion 360, Figma, Framer, Adobe CC, Rhino, Keyshot, Blender(Beginner), HTML, CSS, React, C++, Arduino, C#(Beginner)
